- Creating and Using a Microsoft SQL Server Database Connector in FactoryTalk VantagePoint Software
- Creating and Using Types and Type Reports in FactoryTalk VantagePoint Software
- Importing Logix Controller Structures in FactoryTalk VantagePoint Software
- Creating Cascading Excel Reports in FactoryTalk VantagePoint Software

Day 3

- Creating Composite Reports in FactoryTalk VantagePoint Software
- Creating Dashboard Reports in FactoryTalk VantagePoint Software
- Customizing the FactoryTalk VantagePoint Portal
- Creating Status Indicators in FactoryTalk VantagePoint Software
- Configuring Security in FactoryTalk VantagePoint Software
- Using Mobility Features in FactoryTalk VantagePoint Software

COURSE NUMBER: FTVP

Course Purpose

In this course, you will learn various tools to analyze and display data using FactoryTalk VantagePoint EMI. The course covers how to use the analysis and reporting tools to create Trends, Excel Reports, and Dashboards. You will have an opportunity to use the Portal and configure it to display content in various ways, including mobile devices. The course also focuses on extending the model in the product and configuring security.

Upon completion of the course, you will be able to utilize many tools and techniques for the display, analysis and reporting of data using FactoryTalk VantagePoint EMI.

Who Should Attend

Developers or engineers who will work with FactoryTalk VantagePoint EMI applications and need to view, analyze and create reports should attend this course.

Prerequisites

To successfully complete this course, familiarity with the following is helpful, but not required:

- Microsoft SQL Server 2012
- Microsoft Office Excel 2010
- ControlLogix and FactoryTalk products and terminology

Technology Requirements

All technology is provided for student use in the classroom by Rockwell Automation. It is not necessary for students to bring any technology with them when attending this course.

Student Materials

To enhance and facilitate your learning experience, the following materials are provided as part of the course package:

- *Student Manual*, which contains the key concepts, definitions, and examples presented in the course and includes the hands-on exercises.

Hands-On Practice

Throughout this course, you will have the opportunity to practice the skills you have learned through a variety of hands-on exercises with FactoryTalk VantagePoint EMI software. These exercises focus on the skills introduced in each lesson.

You will also have the opportunity to combine and practice groups of key skills by completing integrated practice exercises during the course.

Course Length

This is a three-day course.

Course Number

The course number is FTVP.

To Register

To register for this or any other Rockwell Automation training course, contact your local authorized Allen-Bradley Distributor or your local Sales/Support office for a complete listing of courses, descriptions, prices, and schedules.
