

FEATURES AVAILABLE, FIXTURING, BOARD, & CUSTOM HARDWARE:

Fixturing Capability

1. Vacuum
 - Vacuum box
 - Hold Down Gates
 - Molded Gasket
2. Pneumatic/Compressed Air
3. Mechanical
4. HP Board Handler

Multiple Boards Per Fixture

1. Panel
2. Dual-Well
3. Multiple Board Types
per Fixture

Functional & Custom Solutions

1. Fiber Optic Solutions
2. LED Color Verification

YOUR COMPETITIVE EDGE IN TEST

Rockwell Automation – ICT

Provides
Agilent In-Circuit
Test Solutions

**Rockwell
Automation**

Upon Job Quotation,

Please Send:

- Schematic Drawing
- Assembly Drawing
- Bill of Materials (BOM)
- CAD Data (optional)
- Special Test Requirements (optional)

Upon Job Receipt,

the Following Additional Information is Needed:

- Populated Board/Panel
- Bare Board/Panel (Optional)
- Fixture Preference
- Special Test Requirements
- Test Configuration File

ROCKWELL AUTOMATION – ICT IS YOUR COMPETITIVE EDGE....

- Aiding in Manufacturing Quality Products
- Cost-Effective ICT Solutions
- Getting Your Product to Market Quicker
- Delivering Superior ICT Test Solutions

RA-ICT has provided reliable, quick-turn, and cutting-edge global test solutions for the past 14 years internally and the last 3 years externally at an exceptional price.

RA-ICT Resources/Capabilities:

- Agilent 3070 Series III Tester
- CAD Conversion capability
- Many years of valuable engineering experience in a production test environment
- Hundreds of fixtures developed
- Ability to perform many different time saving methods during software and production testing
- Digital Test Vector Generation

Features Offered, General:

- Turnkey ICT Solutions
- Boundary Scan Implementation
- Panel Test (Single Bank: 1 or 2)
- TestJet, IC Modeling
- Functional Test Enhancement
- Digital Test Vector Generation
- Quick Flash70 Programming
