LEADPOD™ PRO APP

LeadPod Pro turns an iPhone, iPad or Android device into your own lead retrieval device. Simply scan an attendee's badge with the device's rear-facing camera to capture their contact information on the spot.

Lead data displays on the device's screen instantly, syncs to our server, and is available for download in a password protected portal after the event.

Features

- Use your own iOS or Android device (Restrictions Apply) *
- **LeadPod Pro** App is available for download on the Apple and Google Play store
- Lead data is shown on the device in real-time when captured
- Registration data notes, custom qualifying questions, and actions codes can be applied to leads in real time
- All leads are stored **real-time** in a password protected Leads Portal
- Leads will be available in the Leads Portal for up to 90 days after the event
