If workforce skill and applicant gaps are not addressed, **more than 1.9 million of the up to 3.8 million jobs** could remain unfilled between now and 2033.

**Some 65% of manufacturers** said that attracting and retaining talent is their primary business challenge.

**90%**

of manufacturers polled said that they are forming at least **one partnership to better attract and retain employees**, and on average they have at least four such partnerships.

**40%**

of the current **skill requirements in advanced manufacturing will evolve** over the next five years.
