

Build Knowledge and Expertise with Learning+

March 2024

expanding human possibility®

PUBLIC

Workforce enablement

ADDRESSING THE CHALLENGES OF THE SKILLS GAP

Reduce

unplanned downtime risk

Apply the knowledge you've gained

Leverage virtual support tools, learning resources and modern training tools

Quick, easy access to support

Improve

operational productivity

Reduced mean-time-to-repair

Interactive tools help you manage your teams' skill sets and output

Decrease

overall training costs

On-demand support resources and interactive tools

Access via augmented and virtual reality

Reduced troubleshooting time

Build and maintain the right workforce to meet your unique needs

Transforming your workforce requires a multi-faceted strategy

Train

- E-learning courses
 - Instructor-led courses
 - Consulting assessments
-

Support

- Technical remote support
 - On-site support with field engineers
 - Remote monitoring & managed services
 - Virtual assistance
-

Augment

- Train highly skilled veterans for automation roles in manufacturing
- Augmented Reality work instructions
- Embedded engineers

Rockwell Automation has the expertise to develop a strategy that will equip your workforce with the right skills, knowledge, and tools for smart manufacturing

What

Supplement

Technical Workforce

2.7M

Baby boomers will retire

BY 2025

2M

Jobs are expected to go unfilled

Source: Analysis based on data from U.S. Bureau of Labor Statistics and Gallup survey.

Why

WHAT IS THE SKILLS GAP?

It's a shortage of skilled, trained people. It's the difference between what workers know how to do and what employers need.

HOW COULD IT AFFECT YOU AND YOUR COMPANY?

3.4 million manufacturing jobs are likely to be needed. But 2 million of those are expected to go unfilled, presenting a serious challenge.

Rockwell Automation Training Services

Learning solutions to help build the knowledge and expertise of your personnel

Learning +

E-learning COURSES

Interactive learning with simulations and videos

Covers 9 technologies

Available on any tablet or PC using all major browsers

Learners earn certificates upon completion

virtual Classroom BLENDED COURSES

Hybrid, instructor-led courses

Blends e-learning, video assets, student materials, instructor lecture, interactive labs, collaborative Q&A

Scheduled to run to allow customers freedom to participate in the learning experience on demand

More Learning Enhancements and Tools

Genius Webinars live and on-demand

Knowledge assessments to baseline understanding on a technology

Optionality in what learning content best fits learners needs with a variety of subscription choices

INSTRUCTOR-LED COURSES

Open enrollment courses

Covers Rockwell Automation technologies

Designed to align with specific job functions & focus on relevant tasks

Private training tailored for your needs, delivered at your site

GLOBAL WORKFORCE SOLUTIONS

Workforce development with a program management approach

Consultative assessment of needs leading to a training plan that is designed to meet your needs

Learning+

Lower Training Costs

As a subscriber, you can access all e-learning content and participate in unlimited scheduled virtual classroom sessions with our annual subscriptions.

Take more than thirty of our most popular courses for about the same price as a single five-day in-person training class.

Reduce Unplanned Downtime Risk

A well-trained workforce is the greatest asset when it comes to keeping production running.

It has never been easier to access Rockwell Automation instructors and courses – upskill your team today.

Reduce Travel Expense

A Rockwell Automation Learning+ training subscription is available anytime, anywhere.

Learning+ provides the desired hybrid of self-paced study and interaction with our expert instructors to create the most powerful learning experience available.

Learning+ Features

MORE THAN 400 HOURS OF EDUCATIONAL CONTENT

A global library consisting of more than 40 self-paced automation courses across 9 technologies, 60+ craft skills self-paced courses across 8 knowledge areas, and hours of videos. Content availability is based on subscription type.

11 HYBRID VIRTUAL CLASSROOM SESSIONS

Modularized virtual lectures, lab experience demonstrations, simulations and demonstration videos, and available office hours for small group coaching to enhance learning concepts.

KNOWLEDGE ASSESSMENT TOOL

Learning+ subscribers will have access to knowledge assessments to baseline understanding of a technology. This can help support you in making data-driven decisions on which courses might be right for you.

MONTHLY GENIUS WEBINARS

Every month Learning+ subscribers will be invited to attend a live webinar delivered by a Rockwell Automation technical expert. Can't attend live? Don't worry, all sessions will be available on the platform for on-demand access!

VALIDATED LEARNING

Lessons have a checkpoint, requiring 80% to pass. Upon passing all knowledge checks, a learner will be awarded a Rockwell Automation Certificate of Completion.

More Enhancements and Tools to Improve the Learning Journey

Additional content and tools to enrich the learning experience

MONTHLY GENIUS WEBINARS

- A different technical topic will be covered by a Rockwell Automation technical expert on a live webinar each month
- Those who join the live session can participate in live question-and-answer with the presenter, offering the opportunity for immediate confirmation and engagement on the topic
- All webinars are recorded and hosted in the Learning+ platform for learners to access on demand for the duration of their subscription

BASELINE KNOWLEDGE

- Learners can access 12 product/technology-related assessments to baseline their knowledge on the topic
- Using the results, learners can choose if they want to spend time taking specific courses
- This new feature will aid the learner in knowing how best to use their training time in the vast library of content

Administrative Dashboard

Reporting and administrative features for **multi-user** subscriptions

- A variety of reports showcasing learner usage and progress
 - Course Completion Report
 - Access Key Report
 - Flex Subscription Report
 - Survey Report
 - Virtual Instructor-led Led Training Report
 - Virtual Instructor-Led Training Enrollment Report
 - User Activity Report
 - Learning+ Usage Report
 - Assessment Report
- Customer supervisor administrators can add other administrators to share administrative privileges
- Use the Learning+ Administrator User Guide for a detailed walk-through of all features

Learning+ Craft Skills

NEW!

Foundational industrial skills critical to operating and maintaining production

- Over 140 hours of content on industrial craft skills:
 - Mechanical technician skills
 - Electrical technician skills
 - Maintenance and Shop Equipment
 - Math and Sciences
 - Instrumentation and Control
 - Operational Excellence
- Each course has learning objectives, self-paced instruction, and an assessment to test your understanding
- Example:

Mechanical Maintenance – Valve Maintenance Theory

After completing this lesson, the student should be able to identify:

 - The meaning of the flow coefficient
 - Valve construction materials and characteristics
 - Major valve components
 - Conditions affecting valve operation

Learning+ Craft Skills

500+ craft skills lessons with over 140 hours of content designed for electricians, mechanics, and I&C technicians. In addition, many topics may apply to operators who also have equipment maintenance responsibilities.

Learning+ Flex

New flexible Learning+ option that puts you in control

- Purchased as a minimum of 25 users
- The number of users purchased is how many users can have active Learning+ access at a time
- All access is still via a single access key that unlocks the content
- Being an “active” user means that content is unlocked and consumable
- Customer administrator can deactivate users and free up that seat so it can be reallocated to another user
- All progress remains with the learner whether they have active access or not

Learning+ Flex Examples

Learning+ the way your teams need it!

Needs to upskill a set of employees

Purchases 30 Learning+ Flex users

- Shares all 30 seats on access key
- After 4 months, 15 people have taken the courses they need to upskill
- Unassign those 15 people and share the access key with 15 new people
- 2 months later, 10 more people complete the courses needed
- Unassign those 10 people and share access key with another 10 people

Maximizing investment. Total of 55 people trained.

Struggles with High Turnover

Purchases 25 Learning+ Flex users

- Shares all 25 seats on access key
- 1 month later 4 people leave
- Unassign the 4 people that left
- Over the next 2 months 4 new people are hired
- All 4 users are given the access key to Learning+ when onboarded

Flexibility allowing full value realization

Continual learning and development

Purchases 45 Learning+ users

- Shares all 45 seats on access key
- A new line is being added with new technology requiring reskilling of existing teams
- Unassign 10 people and assign the 10 open seats to the team supporting the new line
- Line is operational for several months, reassign the 10 seats back to the people you took them from to continue their learning

Meeting the evolving needs of production
