Process
YOUR IDEAL DAY PLANNING GUIDE

Process is fit for those interested in the Process Solutions User Group (PSUG) and for those who have attended PSUG events before. All things related to PlantPAx, discreet process control, batching, and the P controller are covered.

The sessions are recommended for, but not limited to:
• Process Control Engineers

Day 1

4:00pm - 5:00pm	DE16	Studio 5000® Application Code Manager Project Execution and Library Management
5:00pm - 6:00pm		

Day 2

10:15am - 11:15am	PR01	What's New and Next for the PlantPAx® DCS
11:15am - 12:15pm	PR02	Defining and Sizing PlantPAx® Systems: Best Practices and What's Next
1:00pm - 2:00pm	PR17	How to address Industry Challenges with a Scalable Process Control System
2:00pm - 3:00pm	PR03	Implementation of PlantPAx® Systems: Best Practices and What's New
3:15pm - 4:15pm	PR16	PlantPAx 5.0, New Controller and Applications Development
4:15pm - 5:15pm		

Day 3

9:00am - 10:00am	PR18	Leveraging PlantPAx to simplify the integration of VSDs, intelligent motor protection, and electrical components
10:00am - 11:00am		
11:15am - 12:15pm	PR15	Introduction to the PlantPAx® 5.0 DCS for Operations and Maintenance
12:15pm - 2:15pm
