Safety
YOUR IDEAL DAY PLANNING GUIDE

Safety includes all things safety! Safety standards, application stories, available technology and best practices are all included.

The sessions are recommended for, but not limited to:
- Safety System Designers
- Safety System consultants
- Control System Engineers with a slant towards machine safety

Day 1

11:00am - 12:00pm	SS25	Smart Safety Systems: Hands-on Lab
12:00pm - 1:00pm		

Day 2

10:15am - 11:15am	SS06	Introduction to Machine Risk Assessment and Functional Specification Development
11:15am - 12:15pm	SS10	Designing a Safe Motor Control System
3:15pm - 4:15pm	SS02	Right-Size Your Safety Control System to Better Manage a More Sustainable Business
4:15pm - 5:15pm	SS08	Safety Automation Architectures - What's New & What's Next

Day 3

10:00am - 11:00am	MC13	Electrical Standards Update
11:15am - 12:15pm	SS03	Are You Challenged by the Demanding Safety Requirements for Your Fail-Safe Applications?
2:00pm - 3:00pm	SS11	Safe Position and Speed Monitoring – real world application of advanced safety technology
3:00pm - 4:00pm	SS01	Functional Safety Standards and the Changing Compliance Landscape
