

Food & Beverage Ideal Day RAOTM Tulsa June 26-27, 2019

**Renaissance Hotel & Convention Center
6808 S 107th E Ave
Tulsa, OK 74133**

Consumers continually seek the new and different, and prioritize taste and nutritional value. That means manufacturers must get new, high-quality products through their facility quickly, and keep prices low and food safer. Through The Connected Enterprise, we help food and beverage manufacturers develop a more agile response to changing consumer tastes. The Connected Enterprise leverages smart manufacturing to revolutionize the way food and beverage manufacturers operate, by providing accessibility to relevant, real-time information.

Technical Sessions of Interest:

T28 - Why Modernize? Performance, Flexibility and Analytics

T09 - Smart Devices: Design, Operate and Maintain The Connected Enterprise

T02 - How to Get Started with Embedded Analytics

T03 - Using TeamONE™ for Secure Mobility and Collaboration

T70 - Introduction to the Allen-Bradley® Integrated Safety System

T25 - What's New in PowerFlex® Drives

T52 - What's New in Visualization

T37 - PlantPAX® System - What's New & What's Next

CT515 - Exploring the Functionality of the Rockwell Automation® Library of Process Objects

T26 - ThinManager® Introduction: Delivering and Managing The Connected Enterprise

T58 - Panduit: The Connected Cabinet

T53 - Design Considerations for Reliable EtherNet/IP Networking

Hands-On Labs of Interest:

L06 - Smart Sensors for Your Architecture

L11 - Introduction to the PlantPAX® Distributed Control System for Operations and System Engineering

L21 - ThinManager® Experience the Platform's Power and Simplicity: Basic Lab

L07 - Distributed HMI with FactoryTalk® View Site Edition: Introductory Lab

L14 - Basic Stratix® Switch and EtherNet/IP Features in Converged Plantwide Ethernet (CPwE) Architectures

L15 - Introduction to Network Security: Lab
