Grant requests to the Rockwell Automation Charitable Corporation are evaluated at all domestic Rockwell Automation locations. Depending on the amount of the request, contributions are made by local management, or the request is forwarded to the Rockwell Automation Charitable Corporation Committee with a recommendation for approval.

Organizations providing services in communities with Rockwell Automation facilities should contact the local Community Affairs administrator to initiate a grant request. Rockwell Automation facilities are listed on our web site: www.rockwellautomation.com.

The Rockwell Automation Charitable Corporation has identified two distinct funding priorities, and special consideration will be given to proposals that integrate these issues:
1) Education and youth development, with emphasis in math, science, engineering and technology; and
2) Culture and the arts, with emphasis on youth educational programs.

Rockwell Automation also contributes to Health, Human Services, and Civic organizations and also gives special consideration to qualifying organizations in which our employees are involved as volunteers. However, the majority of gifts to these organizations are made through Rockwell Automation United Way corporate contributions.

Limitations and Restrictions
Organizations are not eligible for consideration if they have not received a permanent, tax-exempt ruling determination from the federal government, or if they cannot provide current full, certified, audited financial statements, or if they are private foundations.

Funding will not be considered for the following purposes:
1. General endowments
2. Deficit reduction
3. Grants to individuals
4. Federated campaigns
5. Organizations or projects outside the United States
6. Religious organizations for religious purposes
7. Fraternal or social organizations

An application form must be filled out. See application for timing considerations.
